APPENDIX 1
Clarifications for Roadgoing Series Production Cars
(the following clarifications form part of these Supplementary Regulations)

Classes SA, SB & SC

These classes are intended for near-standard cars with very few modifications (as listed), to encourage low cost entry into the sport. All cars running in the above classes must remain in totally road legal form at all times. All cars must have current VED & insurance in the name of the main driver, with a current MOT if age requires it. Note. Trade plates and traders or company group insurance policies will not be accepted. NO modifications (optional or otherwise) are permitted which are likely to improve the performance and handling of the car with the following exceptions:

Wheels & Tyres: The standard wheel rim width may be increased by a maximum of one inch and fitted with tyres to suit. Tyres must be from MSA list 1A and be Road Legal.

Engine & Exhaust: The air cleaner and exhaust system must remain as production or pattern replacement including catalyst if fitted. Electronic ignition may be fitted.

Suspension & Steering: The steering wheel may be replaced by a non-standard item. Up-rated dampers may be fitted.

Body: In the interests of safety the front seats may be replaced by a competition version which must be fully trimmed, not a bare shell. Pyrotechnic safety devices such as airbags and seatbelt pretensioners may be disconnected or removed.

General: No other modifications, except the fitting of a roll cage, are allowed in classes SA, SB and SC. Kit cars, limited production cars, space framed or non-ferrous chassis construction road cars and one-off road-going cars are not permitted in Classes SA, SB and SC.

In the event of an unresolved eligibility issue, the driver of the car concerned may be required to produce within four weeks of the event in question, a manufacturer's catalogue to substantiate any queried modifications / specifications and allow championship points to stand.

Any modifications not specifically permitted are, by definition, not allowed.

Classes 1A to 1E

Tyres must be from MSA list 1A and be Road Legal.

Exhaust systems must include a working catalytic converter on all cars manufactured after 31st December 1999.

Engine & Gearbox: The engine block &/or cylinder head must remain as original type and material. Internal modifications are allowed but the cubic capacity must remain within the same capacity class as the original car.

Gearbox and differential casing must be of the original type and material and remain in the original position. Internal modifications are allowed.

Brakes: Brake calipers, discs, master cylinder & pads can be modified. Carbon discs are not permitted. Modification of the brake pedal is permitted. Brake bias adjustment is allowed. The fitting of pedal assemblies is not permitted. Anti-Lock braking systems can be removed but cannot be added to a vehicle that does not have one as a manufacturer specified option.

Suspension: The suspension type and mountings must remain the same as that fitted by the vehicle manufacturer. The shock absorbers may be of any make and may be up-rated from standard. Adjustable spring platform struts are permitted. The mounting method and position must remain as specified by the vehicle manufacturer. Springs are free but must retain their original location. Bushes may be changed for similar polymer materials, but rose-joints or similar metal joints are prohibited unless fitted as the vehicle manufacturer's specified option. The fitting of spherical type joints is not permitted, except as the top mounting of a suspension strut.

Pyrotechnic safety devices such as airbags and seatbelt pretensioners may be disconnected or removed. Otherwise as specified in Section S11.

The requirements of the current MSA regulations with regards to safety provisions for Sprint and Hillclimb cars and requirements of Classes 1 A-E must be adhered to.

Classes 2A to 2D

Tyres must be from MSA list 1A or 1B of radial construction only and be Road Legal

All cars in 2A & 2B must have a full windscreen fitted.

Exhaust systems must include a working catalytic converter on all cars manufactured after 31st December 1999. Otherwise as specified in Section S.

All other classes as specified in Section S

CHESTER MOTOR CLUB INFORMATION FOR ANGLESEY SPRINT DIRECTIONS TO ANGLESEY RACING CIRCUIT

Cross the Britannia Bridge onto Anglesey, continue West along the new A55 dual carriageway for approximately 12 miles. Look for the white on brown tourism sign indicating the junction for the circuit. Follow the A4080 sign posted Rhosneigr and Aberffraw. Continue past Rhosneigr which is situated to the right of the A4080 on towards Aberffraw. Just under 5 miles from leaving the dual carriageway (A55) look for white on brown tourism signs at a small crossroads and turn right towards the circuit.

Visitors travelling from the port of Holyhead should travel East along the A55 for approximately 7 miles then take the A4080 as described above.

DO NOT follow signs for Ty-Croes, you will end up at a small railway station some distance from the circuit on roads not suited to trailers or transporters!!!
